BP-20071119AKG (Construction Permit)

Dear Mr. Riley:

This is in reference to the above-captioned license application to cover Construction Permit BP-20071119AKG, filed by Chesapeake-Portsmouth Broadcasting Corporation ("CPBC").

A preliminary study of the application reveals that CPBC proposes to increase the antenna top-loading from 6.5 degrees to 7.3 degrees. Accordingly, CPBC must file a minor change application (FCC Form 301) to modify the construction permit as set forth in Section 73.3538 of the Commission's rules. In addition, the current distribution tabulation data is not provided.

Further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide an opportunity to file an amendment. Failure to respond or file an amendment within this time period will result in the dismissal of the application pursuant to Section 73.3568.

Sincerely,

Son Nguyen
